The first of these is the fact that the
 system is not a simple one. It is a
 complex one, involving many factors
 which are not yet fully understood.
 The second is that the system is not
 a static one. It is a dynamic one,
 which changes as it develops.
 The third is that the system is not
 a uniform one. It is a varied one,
 with many different forms and
 structures.

The first of these is the fact that the
 system is not a simple one, but a
 complex one, involving many factors
 which are not yet fully understood.
 The second is that the system is not
 a static one, but a dynamic one,
 which is constantly changing and
 evolving. The third is that the
 system is not a closed one, but an
 open one, which is constantly
 interacting with the environment.
 The fourth is that the system is not
 a linear one, but a non-linear one,
 which is characterized by feedback
 loops and other non-linear
 interactions. The fifth is that the
 system is not a deterministic one,
 but a probabilistic one, which is
 characterized by uncertainty and
 risk. The sixth is that the system
 is not a single one, but a multi-
 scale one, which involves interactions
 at different levels of organization.
 The seventh is that the system is not
